TUNDERBOLT 4 MULTIMEDIA PRO DOCK SPACE GRAY

REF : SA-ST-DT4PMM-EU

EAN : 0810086360581

EXISTE EN : GRIS

DESCRIPCIÓN :

Power up with the new Thunderbolt 4 Multimedia Pro Dock by Satechi. Meticulously crafted with creative professionals and content creators in mind, this 16-in-1 powerhouse has everything you need to spark innovation and power up productivity. Thunderbolt 4 Multimedia Pro Dock will transform your workspace and completely change the way you work.

Compatible with both Mac and Windows PC, this versatile dock offers the best-in-class Thunderbolt 40Gpbs bandwidth for connecting up to four external screens and high-speed peripherals, while simultaneously delivering 96W of charging power to the host device – so you have one less cable to worry about.

PUNTOS FUERTES :

TAKE POWER INTO YOUR OWN HANDS

With 16 ports in just one cable, the Thunderbolt 4 Multimedia Pro Dock opens a world of possibilities with what you can do. Just plug it in and power up! It features 2x DisplayPort 1.4 ports, 2x HDMI 2.1 ports, 7x USB ports, SD and Micro SD card readers, In/Out Audio Jack, and a 2.5Gbps Ethernet port. And to top it off, you stay supercharged all day with 96W power delivery to your laptop/computer. Two of the USB ports can also be used to charge phones and tablets.

GO BIG WITH MORE SCREEN OPTIONS

Level up performance with flexible display connectivity. This dock allows the option to add up to four screens at 4K 60Hz, depending on the system capabilities of the host computer. WINDOWS – Because Windows supports Multi-Stream Transport (MST), the dock can output video to three or four screens in extended mode, which is very convenient for creators and gamers. MAC – Mac supports Single Stream Transport (SST) so it can output video in extended mode to two screens and mirror the other two. M1 and M2 Macs only support one external monitor, meaning only one single video group can be used at a time with output to one screen in extended mode and one screen in mirror mode.

MORE CAPABILITIES, STRONGER CONNECTIONS

The Thunderbolt 4 Multimedia Pro Dock features an efficient and reliable connection with an ethernet port. Say goodbye to inconsistent Wi-Fi. Transferring large amounts of data and high-res files will be seamless with a 1Gbps internet speed and 2.5Gbps transfer speed that supports intermediate file transfer within the same network. Transferring external storage will also be a breeze with two UHS-2 SD and Micro SD card slots that can be used simultaneously with a high transfer speed of 312MBs – perfect for content creators, photographers, videographers, etc.

SLEEK AND DURABLE

Made from aircraft-grade quality aluminum with silicone rubber sides, this dock is built to last. Curved edges and a space gray finish give it a sleek and smooth feel that perfectly complements the Apple aesthetic. The dock also comes with a rubber stand pad so you can stand it vertically or lay it horizontally to best fit your desk space. The 16 ports are carefully situated on both the rear and front, with less on the front to preserve the sleek look of the dock, limiting clutter and maximizing your creative space.

CARACTERÍSTICAS :

- **CONNECTOR TYPE**
    - Thunderbolt 4
    - USB-C
- **DIMENSIONS & WEIGHT**
    - Length : 195mm
    - Width : 105mm
    - Height : 47mm
    - Weight : 693 grams
- **SPEED**
    - 2x DisplayPort
    - 2x HDMI 2.1
    - 1x Thunderbolt 4 to host
    - 1x USB-C 3.2 10Gbps
    - 3x USB-A 3.2 10Gbps
    - 2x USB-A 3.2 5Gbps
    - 1x USB 2.0 for charging up to 7.5W
    - SD and Micro SD card slots
    - 3.5mm Audio Jack In/Out
    - Ethernet 2.5Gbps
    - Kensington Lock
    - DC/20V Port - 135W Power Supply Included
- **WINDOWS** – Because Windows supports Multi-Stream Transport (MST), the dock can output video to three or four screens in extended mode, which is very convenient for creators and gamers.
