DESCRIPCIÓN :

Slim, lightweight and easy to grip, this back cover designed by DECODED enhances the iPhone's glossy colored finish while offering extra protection. Made from a blend of optically transparent recycled polycarbonate and flexible materials, the shell fits perfectly around the buttons for ease of use. On the surface, a scratch-resistant coating has been applied inside and out. And all materials and coatings are optimized to prevent yellowing over time. New this season for the transparent back shell is an all-new camera ring for the iPhone; this two-layer anodized metal camera ring features hand-engraved DECODED branding. Like every case designed by DECODED, it undergoes thousands of hours of testing throughout the design and manufacturing process. So not only does it look great, it's also designed to protect your iPhone from scratches and drops.
